Interactive Cover Letter & Portfolio: https://sydoryk.com/coverletter_sydorykoleh_ip_seniorcompositor

Hi,

I have over 9 years of experience in CGI and visual effects production, lighting and compositing over 300 production shots across cinematic attractions, short films, and immersive experiences.

I have an extensive background in Nuke, handling everything from setting up complex scripts from scratch without templates to multi-pass CG integration, deep compositing, 2D tracking, matte extraction, and final color grading. Whether integrating photorealistic CG elements into photographic plates or adding grading and final touches to full CG shots, I take pride in owning my shots from start to finish with a sharp eye for photo-realism, balance, and color.

Having worked at lead and supervisor levels, I keep my scripts and node graphs clean and highly organized. I communicate proactively across departments to evaluate creative and technical approaches with supervisors and solve potential bottlenecks early on.

I am based in Krakow, Poland (EU) and fully available to join on a freelance or fixed-term contract basis starting in August or September for the full duration through December 2026 and beyond. I would love to discuss how my compositing experience can support your team at Important Looking Pirates.

Cheers,
Oleh
