Interactive Cover Letter & Portfolio: https://sydoryk.com/coverletter_sydorykoleh_gazex_graphic_3d_designer

Hi,

I have over 9 years of experience in full CG production, motion design, and 3D visualization.

Your need for someone who can handle both print (DTP/LFP) and digital (motion graphics, 3D renders, video) is a great match for my background. I am very comfortable with the Adobe Creative Cloud suite (Photoshop, Illustrator, After Effects, Premiere Pro) and advanced 3D software (Maya, Houdini, Unreal Engine) for modeling, rendering, and animations.

While much of my recent work has focused on high-end product visualization and cinematic lighting, I have extensive experience preparing graphic materials for diverse formats, including packaging and digital campaigns. You can see examples of my product rendering, packaging design, and video editing in the portfolio links below. I am also fully equipped with my own hardware and software to handle remote work effectively.

I am currently based in Krakow and would love to discuss how my mix of 3D, motion, and graphic design skills can support GAZEX's ongoing projects.

Cheers,

Oleh
