Interactive Cover Letter & Portfolio: https://sydoryk.com/coverletter_sydorykoleh_online_operator

Hi,

I have over 9 years of experience in technical fields and IT systems, often working at a lead level.

Beyond art and visualization, I have deep experience in IT and DevSecOps for creative studios. I've architected and managed multi-node on-premise render farms, managed workstation lifecycles (Linux/Windows), and engineered custom Python pipelines for cross-network file validation and automation.

While I might not have direct experience as an online platform operator, I learn quickly and hope you can see my strong foundation in IT and problem-solving as a strong bridge to this role. You mentioned needing someone with basic PC skills who wants to learn and develop; I have advanced PC skills and I'm always eager to learn new systems. I also easily find common ground with people, having managed and mentored creative teams for several years.

I'm currently based in Krakow, Poland, so the Old Town location is perfect for me. I am currently available and interested to discuss the position in more detail.

Cheers,

Oleh
